each case without the previous Sanction of Govt." was based on the practice obtaining in Madras where the Supt of Stationery is empowered to purchase, when the stock of any article obtained on annual indents is out and it is urgently required, to purchase the same in the local market to the extent of Rs100. This circumstance and the fact that if "presented articles required for public service" comprised those not coming under the annual tenders, the Comptroller would not be in possession of the necessary details (rates, requirements &c.) for auditing the bills in such cases, & support the Comptroller's interpretation of the term. Such bills would naturally be required to be Sanctioned by Govt.

The argument urged by the Supt. against the interpretation, that "presented articles" referred to above could not mean articles included in the list of tenders, as he can purchase such articles to the extent permitted by the half allotment, is not correct. Estimates are made before hand of the probable requirements of the several articles that would be

BRIEF ABSTRACT OF LETTER.

Asks refn to G.O. No. 2627 / Gen 16 2-07-1 dt. 18-10-07 permitting him to send certain kinds of bills direct to Govt the Comptroller as hitherto instead of through Govt, represents that the Comptroller objects to pass bills for articles purchased within the 50 rupee limit- presented in G.O. No. 2805-A / — dt. 19-11-07, on the ground that by "presented articles required for public service" in the G.O. of 19-11-07 are meant only those included in tenders & not any others & requests early clear orders in the matter.

Whatever may have been the original intention, it seems enough to apply the G.O. in question to articles made out of India

K.S.

HK 22/12/07 23.12.07 We need not, I think, lay much stress on the ~~circumstance~~ distinction between articles made out of India and ~~[illegible]~~ country made ones. What is wanted is that the Sup

required during any year, and any purchases in excess of these estimates are to be sanctioned by Govt.

The intention of Govt, as conveyed in the S.O. of 19.11.06 seems to be that the Supt. should obtain the sanction of Govt. for purchases, to supplement the estimated quantity, of articles included in the tenders, if their value exceeds Rs50/-, and for the purchase of all other articles, not coming under the tenders, irrespective of their value. If these latter are of a contingent character the Supt can of course purchase them from his contingent allotment without ref. to Govt.

what are these called articles?

Subd.
Sd. 4/12

The point raised by the Supt in his letter is "what are prescribed articles" referred to in the Govt order dated the 19th Nov. 1906. A perusal of the file and of the Comptroller's letter dated the 29th July 1906 shews that what was asked for was permission to purchase without the sanction of Govt articles made out of India, subject to the limit of Rs 50 in each case, under art 98 clause K, of the Civil Account Code.

The question is what are the "prescribed articles" referred to in the G.O. of Nov 1904. I do not think the interpretation that they mean articles for the supply of which tenders are invited is correct. There may be some articles - only a small quantity of which may be necessary or which may be required for use only very occasionally - ~~for~~ which it may not be necessary to include in the tenders. Before disposing of the question it would be useful to know what are the articles for which tenders are called for and what are the ~~classes~~ articles bought by the Supdt under the order of Nov 1904. The information may be obtained for the past year or so. We may then draw up a list of articles which the Supdt may buy under the order of Nov 1904 at his discretion subject to the limits fixed by that order; the

should have some data to be able to ~~[illegible]~~ exercise the required check on the expenses incurred by the Supt^t. Hence the importance of the term 'prescribed articles'

which is termed a separate adv

Except in the case of Contingent expenditure the Supt^t must be able to estimate his probable requirements during the year and call for tenders of all articles he may require. The rates &c of all such articles will be ~~[illegible]~~ sanctioned for by Govt^t once for all, and the articles included thus and those, whose rates &c are determined by Govt^t separately, become 'prescribed articles', which may be purchased by the Supt^t up to Rs 50 subject to budget provision.

If the Compln is to blame[illegible] accept the rates &c as entered by the Supt^t in the bills his audit will be of no use. His contention appears, however, to be correct and the Supt^t may be informed accordingly —

The difficulty or delay apprehended by the Supt^t appears to be more imaginary than real, for if tenders are called for all the articles required during the year at the outset, there will not be many occasions when to come up to Govt^t again in regard to the purchase of these articles.

52 Rs was fixed as under art 98 (1a) Civil Account Code.

The term "prescribed article" appearing in that order has not been defined anywhere in that file & I do not think it can ought to be synonymous with articles purchased on tenders. The articles intended to be bought are ~~the~~ articles required occasionally in small quantities for the use of the press which it may not be possible to include in the tenders. I think the order of 1904 may be revised by omitting the term 'prescribed article' & inserting the words "articles of Europe manufacture"

and that it is only in very rare Cases, × that he has availed himself of this authority to purchase any article falling under the Contract. This shows that the Supt. has had need to purchase certain articles, which are not supplied by the Contractors, and that he has relied on the authority conferred by the G.O. of 19-11-04 to make such purchases.

The qualification "prescribed" in "prescribed articles" referred to in the G.O. of 19-11-04 is misleading & may, it appears, be omitted. But then the expression "articles required for public service" would be too general & would furnish no definite standard for the audit office to check the purchases.

SIR,

Adverting to Government Proceedings
No. G 2627 / G. Fin 142-07-1, dated 18th October last, ordering
the forwardal of all bills for articles supplied by contractors as well as those
purchased within Rs: 50/- under the
authority of Government Proceedings
No. G 2805 / G. M. 7-7, dated 19th November 1904
direct to the Comptroller for audit, I
have the honor to bring to the notice of
Government that the Comptroller objects
to pass bills for articles purchased with-
in Rs: 50/- which are not included in
the list of tendered articles on the con-
-tention that the wording "prescribed
articles required for the public service"
in Government Proceedings No. G 2805-7 / G. Fin 7-7 dated

dated 19th November 1904, means only the articles in the list of tenders and not others. This objection, I beg to state, is not correct, as the rates for tendered articles is once for all sanctioned by Government and I can purchase them to the extent of the requirements of the Press within the Budget allotment. Until the issue of Government orders under reference, I was submitting all bills of Contractors as well as for articles ordered under the powers vested in me in Government Proceedings of November 1904, to Government for sanction and they were usually ~~being~~ passed. If the objection now taken by the Comptroller is upheld by Government, I am afraid that I will have to obtain previous sanction of Government for all orders to the Contractors for articles above Rs: 50/- and for all others, irrespective of their value, which will not only greatly retard the progress of work as well as the curtailment of discretionary powers vested in me by Government. I solicit the favor of a clear ruling in the point.

I have the honor to be
